There is a media report today of a proposed 7-a-side event (7PL) being played in Dubai later this year.

According to the media report, there are a number of foreign players participating in the event.

The Emirates Cricket Board (ECB) has advised us that the event has not been approved.

Would you please advise your players not to accept an invitation to participate in this event as it is not sanctioned and is therefore deemed to be Disapproved Cricket.

We also refer you to ICC Regulation 32 relating to Disapproved Cricket which is attached and remind members of their obligation not to permit any player or other person or club under its jurisdiction from participating in Disapproved Cricket.
